

Firearm Log - Entire Gun Log Page

Availability: All CompuPawn configurations.

Inputs Used: Determine parameters (Shift, Gun Log No., etc.)

- *Start In Shift / End In Shift* = {Range}
- *Start Out Shift / End Out Shift* = {Same Range as above}
- *Print Selected Ones Only (Y/N)* = {N}

Example: This example shows a page of the gun log. Rather than reprinting the entire gun log, CompuPawn reprints only those pages affected by changes to the gun log due to acquisitions and/or dispositions of firearms [This is created automatically at the closing of a shift]. Use the newly revised pages of the gun log to replace the old pages and this will maintain a complete up-to-date printed gun log.

Firearm Log - Selected Ones Only

Availability: All CompuPawn configurations.

Example: This example shows a printed listing of those transactions related to firearms acquisitions and/or dispositions for the period selected. This report does NOT replace pages in the firearm log, but does provide an overview of transactions related to firearms for the criteria selected.

Inputs Used: Determine parameters (Shift, Gun Log No., etc.)

- *Start In Shift / End In Shift* = {Range}
- *Start Out Shift / End Out Shift* = {Same Range as above}
- *Print Selected Ones Only (Y/N)* = {Y}
